PLAYTIME ACTIVITIES FOR VISUALLY-IMPAIRED KIDS

Playing is essential for visually impaired children are mentioned in many studies. These activities can help improve the sensory skills of these special kids.

Playing Guide

Playing develops both the body and the brain. It helps improve the cognitive skills of these kids. Other sensory skills like touch, taste, smell, hearing, and balance are also developed too with Brain.

Baking

Baking is a feeling experience for both sighted and visually impaired children. Adult dependency

Musical Toys

Musical toys are good sensory tools for visually impaired children. These toys provide auditory feedback & stimulation. They like keyboards, maracas, tambourines, sticks help improve sensory skills.

Discovery Boxes/Hammer

Every time he bangs it, the child can hear the sounds that are made to excite their ears.

Computer Games

Some modified versions of computer games are available for visually impaired children. Some of them include: Super Mario Bros, play as Dendy, Online Crossword, Candy Crush, Disney, and Baby's Home.

Adapting Toys

Montessori sighted kids to get with visually impaired children. This will help them the common things and the play inclusive.

To help your child to play with his/her toys, you can add some modifications to the toy.

The last resort is to buy pre-made toys from Amazon.
